AYUSH YADAV

Investment Banking Analyst | FMVA | FRM Part I Cleared | Bloomberg Market Concepts | NIT Kurukshetra
Gurugram, Haryana | +91-9306139403 | ayyadav374@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Investment banking analyst at BlueStock.in supporting live deal execution across company profiling, peer benchmarking, financial modelling and valuation. Completed a finance research internship at IIM Bangalore, writing 12+ institutional-style reports using a structured seven-step diligence framework. FMVA-certified and FRM Part I cleared, combining valuation skills with a risk-first view. Engineering background from NIT Kurukshetra brings strong data handling and Excel modelling discipline.

EDUCATION

B.Tech, Computer Science & Engineering 2022 – 2026
National Institute of Technology (NIT), Kurukshetra

Financial Risk Manager (FRM) Part I, GARP Cleared – May 2026
Part II in preparation

PROFESSIONAL EXPERIENCE

Financial Analyst – Investment Banking Division Aug 2025 – Present
BlueStock.in *Gurugram, Haryana*

- Work on live deal mandates with the deal team, from initial analysis through client deliverables.
- Build three-statement, DCF and relative valuation models to assess fundamentals, capital structure and return potential; run sensitivity and scenario analysis.
- Prepare company profiles, competitor maps and peer benchmarking on growth, margins, leverage and return ratios.
- Draft pitch decks, research notes and summary memos for senior stakeholders; reconcile gaps in client-provided data.
- Worked across 6+ live mandates, benchmarking targets against 8–12 listed peers on 20+ financial ratios.

Finance Research Intern Mar 2024 – Sep 2024
IIM Bangalore (Associate Programme) *Bengaluru, Karnataka*

- Prepared 12+ institutional-style research reports covering business model and moat, sector outlook, financials, management, valuation and key risks.
- Benchmarked companies against listed peers (P/E, EV/EBITDA, P/B, PEG, ROE, ROCE) and converted findings into investment theses.
- Tracked quarterly results and concall commentary to update views and flag margin or leverage changes.

Finance Executive May 2023 – Jul 2023
A Digital Blogger *Mohali, Punjab*

- Supported budgeting, forecasting and monthly P&L variance analysis across key cost and revenue heads.
- Monitored receivables and cash flows weekly to flag collection delays to the finance team.

PROJECTS

Company Research Framework *Independent*

- Designed a repeatable seven-step diligence framework (business, sector, financials, management, valuation, risk, thesis) for standardised company reports.
- Applied the framework to 12+ company reports across 6+ sectors, each ending with a clear investment view.

SharePicker – Stock Screening Application *Python, Flask, PostgreSQL*

- Built a fundamentals-based screener to evaluate companies on quality, growth and valuation metrics.
- Added filters on ROE, ROCE, debt/equity and sales growth so users can shortlist companies in minutes.

FinSight – Personal Finance Application *Java, Maven*

- Built a budgeting and analytics app published on Maven Central with a 4.5 rating.
- Includes expense categorisation, monthly budgets and savings goal tracking.
