AYUSH YADAV

Market Research | Data Analysis | Insights & Reporting | FRM Part I (GARP) Cleared
Gurgaon, Haryana, India | +91-9306139403 | ayyadav374@gmail.com | linkedin.com/in/ayush-yadav-78b108258

PROFESSIONAL SUMMARY

Research and analytics professional with practical experience across primary and secondary research, data cleaning and validation, quantitative and qualitative analysis, and client-ready reporting. Have independently authored 12+ institutional-grade research reports involving structured data collection, market sizing, competitive benchmarking and the presentation of findings through clear summaries, charts and recommendations. Have cleared Part I of the Financial Risk Manager (FRM) examination conducted by GARP, a qualification built on statistics, quantitative analysis and data-driven decision making. Comfortable managing multiple concurrent projects to deadline, with advanced Excel capability and working knowledge of Power BI and SQL. Seek to contribute to Empirico Research as a Research Associate, supporting the design and execution of market research studies and the delivery of accurate, insight-led outputs for clients.

EDUCATION

B.Tech, Computer Science & Engineering — National Institute of Technology, Kurukshetra **2022 – 2026**
CGPA: 8.2 / 10 | Coursework and self-directed study across statistics, data analysis, corporate finance and research methodology

AREAS OF EXPERTISE

Research Design & Execution: Study scoping and methodology selection, questionnaire and survey design, sampling approach, data collection coordination, fieldwork quality monitoring

Data Handling & Analysis: Data cleaning, validation and quality checks, descriptive and inferential statistics (FRM-level grounding in probability, distributions and hypothesis testing), cross-tabulation, trend and variance analysis, qualitative synthesis

Reporting & Communication: Client-ready reports and summaries, charts and dashboards, executive presentations, process documentation, stakeholder coordination

Tools & Sources: Advanced MS Excel (pivot tables, lookups, cleaning and modelling), PowerPoint, Word, Power BI, SQL; Bloomberg (BMC), Screener, annual reports, earnings call transcripts, IBEF, RBI and SEBI publications

PROFESSIONAL EXPERIENCE

BlueStock.in — Financial Analyst, Investment Banking Division **Aug 2025 – Present**
Gurugram, Haryana

- Conduct market and company research across sectors, including market sizing, competitive benchmarking, growth-driver assessment and identification of key risks informing client decisions.
- Collect, clean and validate financial and market data from multiple sources, maintaining accuracy and consistency across working files used by the wider team.
- Prepare summaries, charts and presentation materials that translate detailed analysis into clear, decision-ready outputs for internal stakeholders and clients.
- Coordinate with project leads to meet delivery timelines, document methodologies followed, and ensure final outputs align with the stated client objective.

IIM Bangalore-affiliated Finance Research Programme — Research Intern **May 2024 – Sep 2024**
Remote

- Authored 12+ institutional-style research reports covering industry structure, competitive dynamics, business performance and valuation across multiple sectors.
- Performed structured secondary research across annual reports, earnings call transcripts, regulatory filings and sector databases, validating data points against source documents.
- Applied scenario and sensitivity analysis to test key assumptions and assess the reliability of conclusions drawn from the data.
- Presented each report with a clear structure — objective, methodology, findings and recommendation — consistently delivered to programme deadlines.

ENTREPRENEURIAL & ADVISORY EXPERIENCE

Safe Horizon — Founder (Risk Advisory Venture) **2025 – Present**

- Establishing a risk advisory practice for Indian businesses; conducted market and competitor research to define the service architecture, target segments and positioning.

SME Consulting LLP — Co-Founder **2026 – Present**

- Co-building an advisory firm serving SME and MSME clients; gather primary inputs directly from business owners and convert them into structured viability and risk assessments.
- Designed standardised questionnaires and data templates to capture client information consistently across engagements.

CERTIFICATIONS

Financial Risk Manager (FRM), Part I – Cleared — Global Association of Risk Professionals (GARP); covers quantitative analysis, probability and statistics, and risk measurement

Financial Modeling & Valuation Analyst (FMVA), CFI | Bloomberg Market Concepts | Investment Banking Virtual Experience, J.P. Morgan (Forage) | NISM Series XV – Research Analyst | Equity Research Cohort, The Valuation School
