AYUSH YADAV

Research Analyst | Company Intelligence | Private Markets, M&A & Ownership Research

Gurugram, Haryana | +91-9306139403 | ayyadav374@gmail.com | linkedin.com/in/ayush-yadav-78b108258

PROFESSIONAL SUMMARY

Research Analyst with 20+ months of experience in investment banking research, equity research and financial/market data, working at the intersection of research & analysis, private markets domain expertise and AI-enabled workflows. Turns fragmented market signals into structured, decision-ready intelligence on company profiles, ownership relationships, investments and deals, valuations and corporate events. Applies judgement under ambiguity to resolve conflicting information and partial or incomplete disclosures, backed by evidence-based documentation. B.Tech (CSE), NIT Kurukshetra; FRM Part I and FMVA; uses Copilot, research agents, SQL and Python to drive faster research cycles and better source comparison.

CORE COMPETENCIES

Research & Intelligence: Deep Secondary Market Research, Primary-Source Research, Company Intelligence, Company Profiles, Structured & Unstructured Data, Announcements Analysis, Private Markets Ecosystem

Deals & Ownership: M&A Transactions, Investment Rounds, Deal Lifecycle, Ownership Structures, Ownership Changes, Ownership Networks, Investor Relationships, Fund Linkages, Corporate Restructuring, Valuations

Data Quality & Audit: Data Quality, Data Validation, Data Inconsistencies, Coverage Gaps, Conflicting Records, Source Comparison, Audit Trail, Evidence-Backed Documentation, Final Outputs

PROFESSIONAL EXPERIENCE

BlueStock.in | Financial Analyst, Investment Banking Division **Aug 2025 – Present**

Deal research and company intelligence for M&A advisory and capital raising mandates *Gurugram*

- **Research & intelligence development:** Conduct deep secondary market research across DRHPs, annual reports, BSE/NSE and MCA filings, investor presentations and announcements to build structured company profiles for live mandates.
- **Complex deal & ownership analysis:** Interpret M&A transactions, investment rounds, ownership changes and corporate restructuring (mergers, demergers, stake sales); map pre- and post-deal ownership structures and cap tables.
- **Companies expansion:** Identify and screen new private market companies as potential targets and investors; establish investor relationships, PE/VC fund linkages and ownership networks for each.
- **Valuations & corporate events:** Build three-statement models, DCF valuations, trading comps and precedent transactions (EV/EBITDA, P/E); convert findings into decision-ready pitch books and investment memos.
- **Judgement under ambiguity:** Resolve conflicting deal values, dates and stake percentages across sources and fill partial disclosures; apply a source hierarchy and keep evidence-backed documentation for every data point.
- **AI-enabled research & productivity:** Use Copilot, research agents and prompt-driven workflows for AI-assisted discovery, filing and concall summarisation and cross-source validation, driving faster research cycles.

A Digital Blogger | Finance Executive **Mar 2025 – Jun 2025**

Financial/market data and research operations *Mohali*

- Collected and validated structured and unstructured financial and market data; resolved data inconsistencies, coverage gaps and conflicting records before publishing final outputs.
- Built Excel trackers and MIS reports (pivot tables, XLOOKUP) to maintain data quality, data validation and audit-ready records.

IIM Bangalore Associate Programme | Equity Research Associate **Sep 2024 – Dec 2024**

Company and sector research *Remote*

- Authored 12+ institutional-style research reports covering business model, competitive moat, sector, financials, management quality, valuation and risk.
- Tracked corporate events (results, capital raises, acquisitions, promoter shareholding changes) and benchmarked companies against sector peers.

VENTURES & PROJECTS

- **Safe Horizon (Founder):** SME risk advisory venture; conducts company-level due diligence covering ownership structures, related-party relationships and counterparty risk.
- **SME Consulting LLP (Co-founder):** Advisory practice delivering business research and financial structuring to small and mid-sized businesses.
- **SharePicker (Python):** Stock screening application that queries and filters structured market and fundamental data; 500+ users.
- **FinSight:** Personal finance application with 2,000+ downloads and a 4.5 rating.

TOOLS & TECHNICAL SKILLS

Office & Data: Advanced Excel (XLOOKUP, Pivot Tables, Power Query), Office 365, SharePoint, PowerPoint, Word; SQL; Python (pandas, web data extraction)
